

## East Farleigh Plan Action Group

Minutes of Meeting held at The White House 20<sup>th</sup> June 2011

1 Present

Ray Morris ( Chair) Bruce Sturdy Ian Bruce Dennis Fowle Glyn Charlton

2 Apologies from Neil Coleman and Maurice Little

3 Minutes of last meeting were agreed

4 Much discussion over the draft for the village survey that had been prepared by Neil.

It was decided that any comment about the sale of the hall should not be included and the survey sheet would be best served by being more brief and ask 2 specific questions. DF would rewrite it and circulate it to those present for comment. It would then be sent to Neil for circulation to all for approval at the next meeting. It is anticipated September would be the best time for circulation after the holiday period.

An update was received on the hall and currently the buyer is not known. The community is assured the hall will be retained for community use. It was commented that it seemed strange that the current owners would not consider selling the hall to the community despite the very strong views expressed in the plan that it should be retained by the village. This was even more surprising as the parish Council had agreed to match the price.

Bridge It was agreed to send the drafted letter with a slight alteration to the parish Council broadly to ask for a joint meeting with Highways to include Barming Parish Council. A gateway entrance to East Farleigh is suggested together with some signage positioned by the old quarry entrance on the Barming Side of The bridge.

There has been no response yet from the History society over updating notice board information.

GC still to obtain os maps

NC will produce headed paper

Fete is progressing well and fete group have been meeting regularly.

Next Meeting is July 13<sup>th</sup> 7.30 at the White House Pub

**It is with great sadness that we report the loss to the community of Eric Percival who was someone who cared so passionately about the welfare of this community. Our thoughts are with his family at this time.**
